Terminal Disclaimer

1. The terminal disclaimer filed on 10/12/04 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of U.S. Patent No. 6,626,527 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Reasons For Allowance

2. The following is an examiner's statement of reasons for allowance: claims 1, 8, 21, 22, 25 and 26 are patentable over the prior art patents and printed publications because of the specific printing method using a continuous ink jet printer, which comprises a first and a second ink jet printing nozzle for a first color for depositing ink drops on a substrate, a first and a second deflecting element located proximate an output trajectory of the respective first and second nozzles, operative to deflect the ink drops from the respective first and second nozzles by different amounts such that differently deflected ink drops are deposited in a swathed patterns, and an interleaving logic operative to provide interleaved print data to interleave at least one deflected ink drop from the first nozzle with a plurality of deflected ink drops from the second nozzle. The combined limitations are not taught by the art of record alone or in combination.

Claims 2-7, 9-20, 23-24 and 27-28 are allowed because they are directly or indirectly dependent from claims 1, 22 and 25 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2861

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
